Mumbai, Maharashtra | +91-8655749068 | mit@damaniindia.com | <https://www.linkedin.com/in/mit-damani/>

Frontend Developer with experience in WordPress, React, and Shopify, along with hands-on experience in AI Automation and Project Coordination.

Frontend Developer and WordPress Developer with 4+ years of experience in web development, website management, automation, and project coordination. Experienced in custom WordPress development, PHP, JavaScript, React-based frontend development, Shopify, REST API integrations, responsive web development, and AI automation using n8n and OpenAI APIs. Hands-on experience working on internal projects, business dashboards, automation workflows, and client-facing digital solutions. Strong experience in requirement gathering, project coordination, task and deadline management, client communication, stakeholder management, developer/designer coordination, QA coordination, issue resolution, and successful project delivery.

Key Achievements:

- Delivered 30+ production-ready WordPress and CMS websites across SaaS, e-commerce, cybersecurity, and corporate domains.
- Built AI-powered business workflows and automation solutions using OpenAI APIs and n8n, reducing manual operational tasks by 40%.
- Developed custom WordPress themes, plugins, REST API integrations, React-based frontend interfaces, and internal business dashboards for scalable digital solutions.
- Successfully coordinated multiple web development projects from requirement gathering through development, QA, client feedback, and final delivery, coordinating developers, designers, and stakeholders to meet project timelines.

Technical Skills: WordPress, React.js, PHP, JavaScript, Shopify, WooCommerce, ACF, Custom Themes & Plugins, REST APIs, MySQL, HTML5, CSS3, AJAX, OpenAI API, n8n, AI Automation, Website Performance Optimization, Git

Project & Coordination: Requirement Gathering, Project Coordination, Project Tracking, Task Assignment, Task & Deadline Management, Client Communication, Stakeholder Management, Developer/Designer Coordination, Resource Coordination, QA Coordination, Issue Tracking & Resolution, Project Reporting, Technical Documentation, Project Delivery

Tools & Platforms: cPanel, Hostinger, Website Migration, SSL & Domain Configuration, Hosting Management, Git/GitHub, Python (Automation & Integrations)

Experience

1) Arcitech | WordPress Developer Executive | June 2024 - Present

- Develop and maintain scalable WordPress websites using custom themes, plugins, ACF, PHP, JavaScript, and REST API integrations.
- Build AI-powered features and automated workflows using OpenAI APIs and n8n, reducing manual operational tasks by 40%.
- Develop React-based frontend interfaces, internal tools, and business dashboards for internal projects and business requirements.
- Gain hands-on experience with Shopify development and store management, including frontend customization, content management, and basic integrations.
- Handle requirement gathering, task assignment, project tracking, deadline management, and project coordination across development and design teams.
- Coordinate with clients, management, developers, designers, and internal stakeholders on requirements, feedback, QA, issue resolution, and successful project delivery.
- Develop responsive, high-performance websites and frontend interfaces with a focus on performance, usability, and cross-browser compatibility.
- Support project reporting, technical documentation, status updates, and day-to-day communication with managers and stakeholders.
